

Numerical Investigation of Mass Spring Damper Modelling

Industrial Mathematics Level 2 Project

October 12, 2021

1 Front Page

2 Acknowledgment

3 Abstract

4 Table of Contents

5 Table of Figures

6 List of Tables

7 Abbreviations

8 Introduction

8.1 Introduction to the Problem

8.2 Contribution to the field

8.3 Problem Statement and Objectives

8.4 Project Structure

9 Background Studies

This section details your background to the problem. For example, this is where you describe the theoretical background of the studies. Subsections depend about what we are going to talk about. Describe the more details about mathematical approachments.

10 Literature Review

This section helps the reader understand the research context of your work, by providing an overview of existing work in the area.

11	Methodology
11.1	Hardware and Software
11.2	Evaluation method
11.3	Experimental details
12	Results and Discussion
13	Conclusion
13.1	Summary
13.2	Reflections
13.3	Limitations
13.4	Extensions of the Project
14	References
15	Appendix
